Welcome to 2010!

Who is Martin's Metal you ask? Martin's Metal Fabrication & Welding is a family owned company. Len & Carol Martin started Martin's Metal in 1972 in Vacaville, CA. Thirty-eight years later Carol, her son David and his daughter Chantelle are working together to bring our clients the best quality work. We take pride in what we do and what we stand for. Martin's has since grown from the days that Len, Carol and their four children worked in the office and welded in the shop. Today David Martin has taken the company from that mom and pop little company to a growing corporation, but

keeping their same old family values. Why Should you go to Martin's Metal? Martin's Metal is always reinventing itself,

keeping up with new state of the art technology and machines. We build it right the first time. We are always looking for experienced and qualified welders. We treat our employees like family and believe in good honest hard-work, where a handshake and your word still means something. Martin's Metal has a Structural Steel Division, Sheet Metal Division, Machine Shop Division and Art Division.
